OpenStack Day Natal

Sponsorship Prospectus

Background

We are delighted to announce the first ever official OpenStack Day Natal which will take place on the 19th November 2016 in the Praiamar Hotel & Convention Center, Natal, Brazil.

OpenStack Days are conference-style events that typically happen once per year in a particular region and attract speakers locally and from all over the world.

This is a great opportunity to meet industry leaders, end users and active community contributors/core dev's and share learnings and find out more about what OpenStack activities are underway in Brazil.
